## Community Engagement

At ILAC International High School we want our students to become well-rounded young adults. We provide opportunities to nurture our students' sense of self, community and leadership.

Demonstrating leadership skills and initiative is crucial to a successful college or university application in North America. This is why we make sure our students **push themselves to the best version of themselves** so they can fulfill those requirements.

Some of the activities they participate in to develop these skills are volunteering hours, involvement with local charities, and student clubs. Community engagement is part of the student experience, both academically and socially, and we foster this environment proudly.
